

PLANNING OF CONFERENCES
Thursday 27 sep.

08:30
Welcome + coffee

Session 1:
Experience feedback & expectations from users

09:00
Users' voice: main issues concerning Surveillance, Protection and Intervention missions
Speakers: Users and Foreign Partners
Duration : 1h30

10:00
Welcoming speech

11:00
"UAVs in security missions"
Key challenges, innovations, experience feedback
Duration : 1h15

13:00
Lunch time

Session 2: Hoisting symposium & Technological offer from the AeroSPI exhibitors

14:00
Symposium on Hoisting Thematics
supported by EASA and the company REEL
driven by Alexander Weissenboeck, Airbus Helicopters
Duration : 1h30

15:00
Missions performed by Airships - Innovation and key challenges
Speaker: André SOULAGE, Director of Airship Programmes
Duration : 1h00

16:00
New materials and equipment for Surveillance, Protection & Intervention missions
Helmets, NVGs, TRANSACO stretcher, PETZL Harness, UAVs, ...
Duration : 1h30

PLANNING OF CONFERENCES
Friday 28 sep.

08:30
Welcome + coffee

Session 3:
How to improve the safety of operations?

09:00
Operators' safety during their missions:
Key Technologies to increase it
Duration : 1h15

10:00
Training of intervention specialists:
specific needs, possible answers, role of simulation tools
Duration : 1h15

13:00
Lunch time

Session 4:
Breakthroughs & limits of aerial vectors to perform SPI missions

14:00
Enhance critical areas' safety by aerial vectors
Duration : 1h15

15:00
UAV as a threat: how to protect from malicious UAV?
Durée : 1h15

17:00
Closing speech

ANIMATIONS
all along the event 27 & 28 sep.

2 equipped meeting rooms will be provided for **B to B meetings**.
These are key moments to increase business opportunities

A VIP dinner with local deciders, elected and foreign representatives, and industrials as well, will be a friendly opportunity for networking.
It will take place on Thursday night

Static displays of aircrafts, like Mirage 2000N, will remind every visitor and exhibitor that they belong to the aeronautics family

Aerial demonstrations performed by the French Civil Security, by industrials and by ... (surprises are expected !)
will bring fresh and useful breathings to the exhibition

Workshops on simulators
(SAR and CSAR missions, hoisting procedures, sea survival, UAV simulators...)

Live presentation of **new and innovative equipment**

A « **SENSATION** » **special offer** will enable the bravest ones to take advantage of the presence of VSM hardware simulators by attending sea survival training courses, 10 meter-high hoisting exercises...
